1 Introduction

This document is the *Qualified Time-Stamping Practice Statement* concerning the qualified time stamping service of e-Szignó Certificate Authority operated by Microsec Ltd. (hereinafter: Microsec or *Qualified Time-Stamping Provider*).

The *Disclosure statement* contains comprehensive information of the conditions for consumers using the service corresponding to the provisions of the *Qualified Time-Stamping Practice Statement*, according to the provisions of the decree 24/2016. (VI. 30.) of Ministry of Interiors concerning detailed requirements for trust services and their providers.

The *Qualified Time-Stamping Provider* provides its services for its *Clients* with whom it has contractual relationship.

The present *Qualified Time-Stamping Practice Statement* describes the framework of the provision of the aforementioned services and includes the detailed procedures and miscellaneous operating rules.

The *Disclosure statement* complies with the requirements set by the eIDAS Regulation [1], the service provided according to these regulations is an EU qualified Trust Service.

The *Qualified Time-Stamping Provider* announced the provision of the trust service to the National Media and Infocommunications Authority on the 1st of July 2016.

The conformity assessment audit of the qualified trust services was carried out by the independent auditor TÜV Informationstechnik GmbH (hereinafter: TÜViT).

Based on the successful audit the National Media and Infocommunications Authority registered the qualified trust service and published it in the Hungarian Trust List [11] on the 20th of December 2016. The conformity assessment of the qualified trust service will be performed by Hunguard Kft (hereinafter Hunguard) as an independent auditor from October 2020.

The *Qualified Time-Stamping Provider* provides the most important information to the *Clients* also in the form of a Disclosure Statement. The Disclosure Statement will be published as described in Section ??.

The *Qualified Time-Stamping Practice Statements* and the provision of the services are supervised by the National Media and Infocommunications Authority. The National Media and Infocommunications Authority maintains a register on the *Certificate Policies* and on the *Qualified Time-Stamping Providers* applying these policies.

2 The Certificate of the Time-Stamping Unit and Time-Stamping

2.1 The Time-Stamp

The *Time Stamp* issued by the *Qualified Time-Stamping Provider* complies with the IETF RFC 3161 [9], the IETF RFC 5816 [10] and the ETSI EN 319 422 [7] standards;

Accordingly the characteristics of the *Time Stamp* are:

- it includes the hash sent in the message of the requester.
- it includes the OID of the *Time-Stamping Policy*.
- it has a unique identifier.

2.1.1 The Time-Stamp Request

The *Qualified Time-Stamping Provider* supports the *Time Stamp* requests according to the IETF RFC 3161 [9] section 2.4.1. including the usage of the following fields:

- "reqPolicy"
- "nonce"
- "certReq"
- "extensions"

The *Qualified Time-Stamping Provider* accepts the hashing algorithms in the *Time Stamp* requests specified by ETSI TS 119 312 [8] and the current National Media and Infocommunications Authority algorithmic decree. It takes into account when selecting the hashing algorithms the planned usage time of the *Time Stamp* and the expected duration of the hashing method adequacy.

The currently supported hashing algorithms are:

sha256	{ joint-iso-itu-t(2) country(16) us(840) organization(1) gov(101) csor(3) nistAlgorithm(4) hashAlgs(2) sha256(1) }
sha512	{ joint-iso-itu-t(2) country(16) us(840) organization(1) gov(101) csor(3) nistAlgorithm(4) hashAlgs(2) sha512(3) }

2.1.2 Time-Stamp Response

The *Qualified Time-Stamping Provider* supports the *Time Stamp* responses according to IETF RFC 3161 [9] section 2.4.2 with the following extensions:

- "accuracy";
- "nonce".

In case of the inclusion of the "nonce" in the *Time Stamp* request, the *Time Stamp* response includes the same value.

The *Qualified Time-Stamping Provider* uses the cryptographic algorithm sets and key lengths for signing the *Time Stamps* specified by ETSI TS 119 312 [8] and appointed in the current National Media and Infocommunications Authority algorithmic decree. It takes into account the planned usage time of the *Time Stamp* when selecting the cryptographic algorithm sets and key lengths.

The supported cryptographic algorithm set:

sha256WithRSAEncryption	{ iso(1) member-body(2) us(840) rsadsi(113549) pkcs(1) pkcs-1(1)sha256WithRSAEncryption(11) }
sha512WithRSAEncryption	{ iso(1) member-body(2) us(840) rsadsi(113549) pkcs(1) pkcs-1(1)sha512WithRSAEncryption(13) }
ecdsa-with-SHA256	{ iso(1) member-body(2) us(840) ansi-x962(10045) signatures(4) ecdsa-with-SHA2(3) ecdsa-with-SHA256(2) }

The identifier of the supported ETSI Time-Stamping profile (BTSP):

itu-t(0) identified-organization(4) etsi(0) time-stamp-policy(2023) policy-identifiers(1) baseline-ts-policy (1).

2.2 Time-Stamp Accuracy

The *Qualified Time-Stamping Provider* guarantees that the deviation of the time indicated in the *Time Stamps* from the UTC time is at most 1 second.

The *Time-Stamping Unit* clock provider systems are in the strictly protected *Data Centre* of the *Qualified Time-Stamping Provider*, which makes the unnoticed modification of the clock impossible.

The *Qualified Time-Stamping Provider* constantly monitors its internal time provider systems. If the internal time deviation from the UTC time exceeds 0.1 second, the the *Qualified Time-Stamping Provider* suspends the issuance of *Time Stamps*.

The accuracy of the internal clock of the *Qualified Time-Stamping Provider* is examined every year by the security committee of the *Qualified Time-Stamping Provider*.

2.3 Time-Stamp Validation

During the verification of the validity of the electronic signature or electronic seal on the *Time Stamp* the *Relying Party* should act as described in the ETSI EN 319 102-1 [3] specification.

During the verification of the *Time Stamp*:

- it shall be verified that the time-stamped document belongs together with the *Time Stamp* and the *Certificate* of the *Qualified Time-Stamping Provider*;
- the signature on the *Time Stamp* shall be verified;
- it shall be verified that the *Time Stamp* meets the specific purpose, among other things that the accuracy, the reliability and the liability of the related Time-Stamping Service Provider is appropriate.

2.4 Time-Stamping Service Availability

The *Qualified Time-Stamping Provider* guarantees the continuous availability of the service and the terms and conditions for the use of the *Time Stamps* the *Qualified Time-Stamping Provider* issues with an availability of at least 99.9% per year, while service downtimes do not exceed at most 3 hours in each case.

3 Certificate Life-Cycle Operational Requirements

3.1 Key Pair and Certificate Usage

3.1.1 Relying Party Public Key and Certificate Usage

To retain the level of security guaranteed by the *Qualified Time-Stamping Provider*, in the course of using the service the *Relying Party* is recommended to proceed prudentially particularly regarding to the following:

- the *Relying Party* shall verify the validity and revocation status of the *Certificate*;
- the verifications related to the *Certificate* should be carried out for the entire certificate chain up to a trusted root or intermediate provider certificate;
- it is recommended to verify that the *Certificate* was issued according to the appropriate Certificate Policy;
- the *Relying Party* shall consider any restrictions indicated in the *Certificate* or in the regulations referenced in the *Certificate*.

4 Facility, Management, and Operational Controls

The *Qualified Time-Stamping Provider* applies physical, procedural, and personnel security precautions that comply with acknowledged standards, along with the administrative and governance related procedures that enforce these.

The *Qualified Time-Stamping Provider* keeps a record of the system units and resources related to the service provision, and conducts a risk assessment on these. It uses protective measures proportional to the risks related to the individual elements.

The *Qualified Time-Stamping Provider* monitors the capacity demands and ensures that the adequate processing power and storage are available for the provision of the service.

4.1 Audit Logging Procedures

In order to maintain a secure IT environment the *Qualified Time-Stamping Provider* implements and operates an event logger and control system covering its full IT system.

4.1.1 Types of Events Recorded

The *Qualified Time-Stamping Provider* logs every security-related event that can provide information on events, changes happened in the IT system or in its physical environment according to the generally accepted information security practice. In case of every log entry, it stores the following data:

- the time of the event;
- the type of the event;
- the identification of the user or the system who/what triggered the event;
- the success or failure of the audited event.

All new audit record is appended to the audit records. The earlier saved audit records can't be modified or deleted.

All of the essential event logs are available to the independent system auditors, who examine the compliance of the *Qualified Time-Stamping Provider's* operation.

4.2 Records Archival

4.2.1 Retention Period for Archive

The *Qualified Time-Stamping Provider* preserves the archived data for the time periods below:

- the *Qualified Time-Stamping Policy* for at least 10 years from the date of repeal;
- *Qualified Time-Stamping Practice Statement* for at least 10 years from the date of repeal;
- General Terms and Conditions for at least 10 years from the date of repeal;
- main data related to the issuance of the *Time Stamp* for at least 10 years after the issuance;
- all other documents to be archived for at least 10 years from the date of their creation.

5 Compliance Audit and Other Assessments

The operation of the *Qualified Time-Stamping Provider* is supervised by the National Media and Infocommunications Authority in line with European Union regulations. The National Media and Infocommunications Authority holds site inspections on at least yearly basis at the *Qualified Time-Stamping Provider* location. Before the site inspection, the *Qualified Time-Stamping Provider* has a screening of its operations by an external auditor and sends the detailed report of the screening to the National Media and Infocommunications Authority within 3 days from its receipt. During the screening it is to be determined whether the operation of the *Qualified Time-Stamping Provider* meets the requirements of the eIDAS Regulation [1] and the related Hungarian legislation and the requirements of the applied *Qualified Time-Stamping Policy(s)* and the corresponding *Qualified Time-Stamping Practice Statement(s)*.

The subject and methodology of the screening complies with the following normative documents:

- REGULATION (EU) No 910/2014 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 23 July 2014 on electronic identification and trust services for electronic transactions in the internal market and repealing Directive 1999/93/EC [1];
- ETSI EN 319 403 V2.2.2 (2015-08) Electronic Signatures and Infrastructures (ESI); Trust Service Provider Conformity Assessment - Requirements for conformity assessment bodies assessing Trust Service Providers; [5]
- ETSI EN 319 401 V2.2.1 (2018-04); Electronic Signatures and Infrastructures (ESI); General Policy Requirements for Trust Service Providers [4]
- ETSI EN 319 421 V1.1.1 (2016-03); Electronic Signatures and Infrastructures (ESI); Policy and Security Requirements for Trust Service Providers issuing Time-Stamps. [6]

The result of the screening is a confidential document accessible only to authorized persons.

The conformity certificate issued in accordance with the conformity assessment report is published on the webpage of the *Qualified Time-Stamping Provider*.

The *Qualified Time-Stamping Provider* applies verified and certified elements (electronic signature production IT system elements) in connection with the service.

The *Qualified Time-Stamping Provider* has rated every one of the system elements used for providing the services into security classes on the basis of its risk assessment system. The *Qualified Time-Stamping Provider* keeps records about these system elements and the security ratings associated with them in the scope of its risk management system.

In addition to the external audit, the *Qualified Time-Stamping Provider* also has its proprietary internal auditing system, which regularly examines compliance with previous audits, and takes the necessary steps in case of deviations.

The *Qualified Time-Stamping Provider* has an ISO 9001 standard compliant quality management system since 2002, moreover an ISO 27001 (formerly BS 7799) compliant information security management system since 2003, which are continuously audited and reviewed by an external auditing organisation.

6.5 Dispute Resolution Provisions

The *Qualified Time-Stamping Provider* aims for the peaceful and negotiated settlement of the disputes arising from its operation. The settlement follows the principle of gradual approach.

The *Qualified Time-Stamping Provider* and the *Client* mutually agree that in the case of any disputed issue or complaint arising whatsoever, they will attempt amicable consultation through negotiation before taking the dispute to legal channels. The initiating party will be obliged to notify every other affected party promptly and to inform them fully concerning all of the case's implications.

The *Client* in case of a deputation is entitled to appeal to the Arbitration Board of Budapest before incidental judicial proceedings.

Questions, objections, and complaints related to the activity of the *Qualified Time-Stamping Provider* shall be addressed to the customer care centre office in written form. The *Qualified Time-Stamping Provider* notifies submitting parties at the address they specify about having received a submission and the time required for investigation, within 3 business days calculated as of receiving a submission. The *Qualified Time-Stamping Provider* is obliged to issue a written response to the submitter within the specified time limit. The *Qualified Time-Stamping Provider* may request the provision of information required for giving a response from the submitter. The *Qualified Time-Stamping Provider* investigates complaints within 30 days, and notifies submitters about the results thereof.

Should a submitter find the response inadequate or if the dispute which had arisen can not be settled based on it without getting the *Qualified Time-Stamping Provider* involved, the submitter may initiate consultation with the *Qualified Time-Stamping Provider* and the *Relying Parties*. All participants of such consultation shall be given written notice regarding the date of consultation 10 business days in advance thereof; and the submission, the *Qualified Time-Stamping Provider's* response, as well as any documents containing other required information shall be sent to them in writing.

Should consultation fail to achieve a result within 30 business days calculated as of a complaint being submitted, the submitter may file a lawsuit with respect to the issue. The *Relying Parties* shall subject themselves to the sole jurisdiction of the II. and III. District Court of Budapest and/or that of the Municipal Court of Budapest.

6.6 Governing Law
